

Safety and Other Programs

Verendrye Electric would like to visit with your school, group or organization and share with you our educational programs.

*These programs are **Free** of charge.*

The following is a list of some of our available programs and DVDs:

**EXPERIENCE THE POWER -
THE STORY BEHIND THE SWITCH:**

This program is a 45 minute demonstration of electricity, what it is, how it's made, how it gets to where it's going and how it has become a part of our lifestyles. Slides and hands-on demonstrations are used as part of the program. Emphasis is placed on safety and respect for electricity. The program is easily understood by students at elementary and junior-high levels. Offered every other year by Basin Electric personal.

POWER SUPPLY DEMO: This tabletop hands on electrical safety presentation demonstrates electrical hazards in and around the neighborhood; For students grades 1st – 6th. 30 minutes.

Electrical Safety at Home and Work : Shows adults and teens how to stay accident-free with this 17-minute DVD. TV personalities Jack Perkins and Rich Trethewey show viewers how to prevent electrical accidents as they demonstrate the right ways to perform common activities around the house, in a home workshop, and on the job. For students Junior High - Adults.

The Shocking Truth About Electrical Safety: Students enjoy learning safety skills from two enterprising classmates studying the nature of electricity. Fast-paced, live-action 18-minute DVD teaches them how to spot danger fast and avoid injury. Grades 4th – 8th.

Kato's Electrical Safety Video Adventure: Every youngster can learn how to avoid common indoor and outdoor accidents. The video game theme makes Kato's electrical safety lessons unforgettable. A rainbow of multicultural characters star in this entertaining 9-minute safety adventure. DVD, Grades K – 3rd .

Where The Little Light Bulb Gets Its Juice: Youngsters learn how electricity is generated and transmitted as they watch this engaging, animated 5-minute DVD. You won't find a better explanation of the service that a utility provides. Grades K – 5th .

Careers at Your Local Electric Cooperative: Excellent dvd to use for a career day or to familiarize students with the type of work done by a lineman. DVD, 11 minutes.

First Responders & Electrical Hazards: Teaches everything first responders must know for emergency response, covering substation fires, downed wires, fire apparatus and overhead line, car-pole accidents and pole & structure fires. DVD, 21 minutes.

Electricity Recognizing and Avoiding the Hazards: An excellent dvd for volunteer fire departments along with a VEC employee presentation. 50 minutes

Verendrye would be happy to tailor a program to meet the requirements of your group. We Also offer tours of Verendrye's facilities in Velva.
